

Trafalgar Dock What's next?

Please consider the proposals and leave your comments on a feedback form. Alternatively comments can be submitted via our website www.royalpierwaterfront.com where there are regular updates and further details of proposals.

An exciting
new waterfront
for Southampton

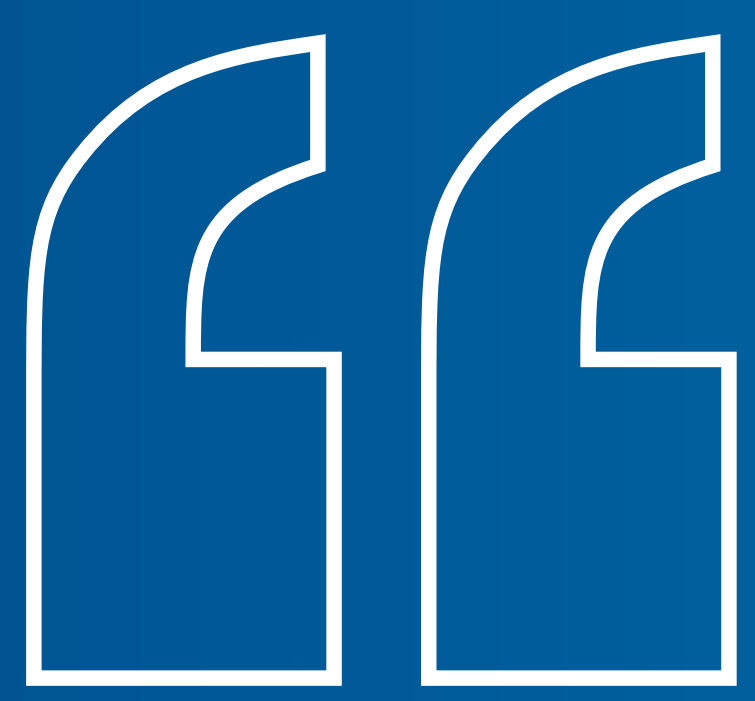

The project team will now:

- Review comments received from the exhibition and analyse where improvements can be made
- Submit a full planning application, listed building consent application and marine licence for Trafalgar Dock in the first half of 2015. These will be accompanied with an Environmental Impact Assessment, Design and Access Statement, Transport Assessment, and all the other technical and environmental reports required to support these applications
- Progress proposals at Mayflower Park/Royal Pier Waterfront and carry out further consultation on these during spring 2015 in advance of a planning application later that year.

Ideas being explored at Royal Pier
