

Solent Gateways

Improving Connectivity Between Southampton and the Isle of Wight

This scheme will provide the enabling public infrastructure needed to improve the Red Funnel Ferry terminals on each side of the Solent, including access roads, cycling and walking routes, town centre public realm in East Cowes, good quality waterfront areas, and a new 'floating bridge' between East and West Cowes.

The scheme sponsors are the Isle of Wight Council and Southampton City Council, together with the Red Funnel Group.
